Experience

Foremost Leads

Aug. 2026 – Present

AI Generalist — Jaipur, India

- Built a multi-client automated daily ad reporting system using Google Sheets, Google Apps Script, Meta data, client lead data, and Pabbly, supporting 13 separate client accounts with centralized reporting.
- Automated daily reporting of ad spend, leads, CPL, 7-day average CPL, landing page view cost, and account balance through Apps Script workflows.
- Implemented client-level data isolation, duplicate prevention, error handling, and append-only reporting for reliable daily processing.
- Built automated client-wise report delivery through Pabbly and worked on AI agents, AI-powered internal tools, websites, landing pages, and business process automation.

WOK Media LLC

Mar. 2026 – Apr. 2026

Web Developer — Jaipur, India

- Delivered responsive and performant client web applications using Next.js and Tailwind CSS from Figma design handoffs.
- Engineered immersive scroll-based experiences using GSAP, ScrollTrigger, and smooth-scrolling libraries for interactive landing pages.
- Customized Shopify storefronts using Liquid, built animated UI components with Framer, and deployed projects on Vercel and Netlify.

VertexPlus Technologies Pvt. Ltd.

Jun. 2025 – Oct. 2025

Frontend Development Trainee — Jaipur, India

- Trained in HTML5, CSS3, JavaScript, and React.js while building mini-projects and reusable interfaces using Bootstrap and Tailwind CSS.
- Gained hands-on experience with React workflows, debugging, deployment, Git, and Linux.

Projects

Multi-Client Daily Ad Reporting System

Google Sheets, Apps Script, Meta, Pabbly

- Built an automated reporting system for 13 clients with isolated spreadsheets and a centralized MASTER dashboard, integrating Meta ad data and client lead data.
- Automated spend, leads, CPL, 7-day CPL, LPV cost, balance reporting, duplicate prevention, error handling, and client-wise email delivery.

Mystree Messages

Next.js, React, NextAuth, MongoDB, Nodemailer, Zod

- Built a full-stack anonymous messaging application with OTP verification, session management, and secure authentication flows.
- Integrated Nodemailer, Zod validation, and AI-powered message suggestions to improve the messaging experience.

Musicacade

React, Framer Motion, Netlify

- Built and deployed a responsive music-themed web app with smooth page transitions, scroll animations, optimized performance, and continuous GitHub deployment.
